This Multiplayer Expansion aged really badly and the gameplay is not fun imo, unlike the original Half Life, dont recomend this unless you can get it for free by buying one of the Half Life 2 Games.. Beyond broken *because 2013 update and still not fixed by community* and stupidly fun somehow. I prefer the original HL by far but this could be literally a sh*tposting game because of how dumb & fun it can be. There should be a bit more people, but not much. Never, EVER play this seriously, if you do, you are stupid. And always remember, dodge those MP5 grenades, and that it crashes more than a horny thot..
